San Francisco Bay Area

EDUCATION **Rice University**, Houston, TX
B.S., Computer Science
Trustee Distinguished Scholarship

Aug 2015 – May 2019

EXPERIENCE **Veeva Systems**, Pleasanton, CA
Software Engineer

April 2021 - Present

- Delivered Safety Link feature to support sending adverse events to safety systems via EDI/AS2 gateway
- Performed data model changes to support new designs
- Executed change controls to modify production data when necessary
- Worked directly with service teams to resolve customer issues
- Onboarded new engineers by explaining the application and development standards

Veeva Systems, Pleasanton, CA
Associate Software Engineer

May 2019 - April 2021

- Implemented backend code to support drag-and-drop form design, enabling customers to build studies quickly and efficiently
- Added to system-generated Study Differences Report to accurately document all changes between two studies
- Developed deployments feature to push study designs across environments
- Expanded rule editor capabilities to help customers design rules to further dynamically generate form design
- Enhanced casebook validations in parallel with new features to catch unsynced data

SKILLS *Languages:* Java, Python, SQL
